

EXS-40-FD

Small Explosions

The EXS-40-FD is a lightweight, single-man portable Fire Blast Simulation Device. It is equipped with a carrying handle and premium tank set in a pelican-style wheeled case for easy transport and re-positioning during training.

The EXS-40-FD is designed to be used in close proximity training with personnel, making it the perfect solution for, but not limited to, the following:

- **Magnesium Steering Column Explosion**
- **Bumper Strut Explosion**
- **Air-Bag Deployment**
- **Interior Explosions**

Device	Height	Width	Length	Weight
EXS-40-FD	14.5 in	6.5 in	10.5 in	12 lbs
