

EXS-60-FD

Medium Explosions

The EXS-60-FD is a completely self-contained, single-man portable, wirelessly controlled explosive blast simulator designed to replicate, but not limited to, the following:

- **Any Medium Sized Explosion**
- **Vehicle Engine Explosions**
- **Lithium-Ion Battery Explosions**
- **Thermal Runaway**

It is equipped with internal fire protection material, enabling use during Live-Burn Exercises.

| Device | Height | Width | Length | Weight |
|------------------|----------------|----------------|----------------|---------------|
| EXS-60-FD | 14.0 in | 22.0 in | 22.0 in | 50 lbs |
